

What is Tooway?

- Affordable 'broadband' for homes faced only with unreliable or dial-up internet access or, no phone line at all
- Fast reliable access to the Internet via a high performance satellite network.
- Ideal for holiday homes – three month contract – no payments through the winter.

What does Tooway consist of?

- Equipment similar to Sky TV – A satellite dish and a control box for connection to your computer/computer network

What can I do with Tooway?

- Just like broadband you can send and receive emails and surf the internet

Where can Tooway be installed?

- Literally anywhere. Whether you're in the campo, in the mountains or an urbanisation, the system can be installed for you. There is even a mobile version for caravans and RV's

We have two computers can we both access the internet at the same time?

- No problem Tooway can be connected to a home network to share printers and scanners

What if I move house?

- Tooway can be taken with you in the removal van. Just call us and we will de-install and re-install at your new address

What does it cost?

- First decide how much the system will be used and select the service plan to suit you for the list below. Then refer to the price list. Note: Capacity doubles when used at night.

Service Plans

1. **Home User** – monthly capacity 2.4GB
Where family wish to keep in touch by email, surf the internet download a music album/watch a YouTube clip.
2. **Home User+** - monthly capacity 4GB
Where family wish to keep in touch with family by email, surf the internet and download a few music albums/watch a few YouTube clips.
3. **Office User** – monthly capacity 6GB
Where multiply users wish to do business by email, surf the internet download a few music albums and watch multiply YouTube clips
4. **Office User+** - monthly capacity 12GB.
Where multiple users wish to do business by email, surf the internet download a few music albums and watch multiple YouTube clips and download a few DVD's

Not sure what Plan you need?

- 60 hours web surfing = 1.5GB
- 1 Music Album = 0.06GB
- 10 Min Video Clip on YouTube = 0.2GB
- Low definition movie = 0.75GB
- DVD quality movie = 4.5GB
- 10 hours of internet radio = 1.2GB

For the technically minded

Tooway is a Europe-wide satellite internet service providing a low cost, quick to deploy, satellite internet connection for home users. File transfer speeds are up to **64** times faster than dial-up, and up to **7** times faster than many ordinary ADSL connections.

Tooway is available anywhere in Europe, and is designed for homes, offices and small businesses* with up to 3 users and is ideal for properties where Internet access is poor or not available a satellite broadband solution designed from the outset for the home is the solution. World wide there are over 350,000 users

Tooway supports email and internet browsing including:

- Secure online sites, ecommerce and online banking
- Remote site hook up
- FTP
- Distance Education

You can share the service between several computers using a wireless or standard router or switch, and you don't need the ongoing expense of a phone line.

Tooway features

- no long term commitment
- Download speeds up to 3.6 Mbps with upload up to 384 kbps
- Always on, plug and play connectivity
- Rapid and cheap installation

* Businesses that require additional broadband functionality like IPsec VPN connections or wish to send very large files should consider [iaccess](#) and [iconnect](#) solutions which are suitable for this kind of work.
